Austin Motor Company's small straight-4 automobile engine, the A series, is one of the most common in the world [citation needed]. Launched in 1951 with the Austin A30, production lasted until 2000 in the Mini. It used a cast-iron block and cylinder head, and a steel crankshaft with 3 main bearings. The camshaft ran in the cylinder block, driven by a single-row chain for most applications, and ...
